HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, as is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

EASTERN DATES TO FEBRUARY 6

Washington Matters in General

WASHINGTON, Feb 6. The President will as soon as he shall receive official notice of the rejection of Judge Hoar nominate to the Senate two gentlemen to supply the vacancies on the Supreme Court bench, one of whom is Judge Strong of Pennsylvania. The President has not determined upon the other, but informed his friends yesterday that Hoar would remain in the Cabinet.

Official advices have been received from San Domingo that the Haytien Government had failed to assist the revolutionists in forming a republic, but the administration attach no importance to the information.

The Mower Silver Mining Company of Arizona has filed its claim for damages against Mexico before the Joint Commission for the seizure of a train loaded with silver bars by Mexican troops in Sonora in 1866.

The President yesterday issued a proclamation announcing the ratification of the additional treaty with China, and communicating its provisions. Article first provides that in making commissions to citizens or subjects of foreign powers of privileges of residing on certain tracts of land or of resorting to certain waters of the Empire of China, the Emperor by no means relinquishes his right of eminent domain. He agrees that no such concession shall be construed or give to any power or party which may be at war with or hostile to the United States the right to attack citizens of the United States or their property within said lands. It is also agreed that the United States shall abstain from attacking offensively citizens or subjects of any foreign power with whom they may be at war and the right of the Chinese government over persons and property is retained, except so far as that right may have been expressly relinquished by treaty. Article second provides that any privilege or immunity with respect to trade or navigation within the Chinese dominions which may not have been stipulated for by treaty, shall be subject to the discretion of the Chinese government. Article third authorizes the Emperor of China to appoint Consuls at United States ports, who shall enjoy the immunities and privileges of the Consuls of Great Britain and Russia. Article fourth guarantees to citizens of the United States visiting or residing in China, the same privileges, immunities and exemptions in respect to travel or residence as are there enjoyed by the citizens or subjects of the most favored nations, and reciprocal privileges to the citizens of China in the United States, but the stipulation is not to be construed as conferring naturalization on either. Article seventh provides for the reciprocal enjoyment by the citizens of the two countries of public educational institutions under the control of either, which are enjoyed in the respective countries, by the citizens and subjects of the most favored nations, and gives the privilege of establishing and maintaining schools within the Empire of China, at those places where foreigners are by treaty permitted to reside. The Chinese citizens are to enjoy the same privileges and immunities in the United States. Article eighth says, the United States always disclaiming and discouraging all practices of unnecessary dictation and intervention of one nation in the affairs or domestic administration of another, do hereby disclaim and disavow any intention or right to interfere in the domestic administration of China, in regard to the construction of railroads, telegraphs or other national internal improvements. On the other hand, his Majesty, the Emperor of China, reserves to himself the right to decide the time, manner and circumstances of introducing such improvements within his dominions, with this material understanding, that it is agreed by the contracting parties that if at any time hereafter his Imperial Majesty shall determine to construct, or cause to be constructed, works of the character mentioned within the Empire, and shall make application to the United States or any other western power, for facilities to carry out that policy, the United States will in that case designate and authorize suitable engineers to be employed by the Chinese government, and will recommend to other nations an equal compliance with such applications, the Chinese government in that case protecting such engineers in their person and property, and to pay them reasonable compensation for their services.

A Delegation from Georgia.

AUGUSTA, Ga., Feb. 5.—Senators Hall, Bryant, Caldwell, Holden and other Republicans opposed to Gov Bullock and his policy, are on their way to Washington to represent the condition of affairs in Georgia to Congress. Bryant says the object of the delegation is to show that Bullock has violated the reconstruction laws, that the Legislature as now organized is illegal, that if Congress sustains Bullock the Republican party of Georgia will be destroyed. The delegation represents the conservative wing of the Republican party of the State, and repudiates all affiliation with the Democracy.

From Havana.

HAVANA, Feb 5.—General Goyaneche has returned to Puerto Principe. He announces that on the 28th he defeated the rebels and captured two pieces of artillery and many prisoners. It is reported that a son of Cespedes eleven years old is among the captured prisoners. Seven houses and several sugar fields have been destroyed by incendiaries on the line of the Rembo and Casbarian railroad.

Missouri News

ST LOUIS, Feb 6.—At a meeting of the Woman's Suffrage Association last night, one of the speakers contended that woman as a citizen had the right to vote under the Constitution and stated that a test case would be made at the next general election in Missouri, and carried through the courts to a final decision.

The Directors of the Missouri Pacific Railroad have agreed to renew the contract with the Missouri River Railroad between Kansas City and Leavenworth at the rate of sixty thousand dollars yearly.

Miscellaneous

NEW YORK, Feb 5.—Among the passengers on the steamer *Rhine*, from Bremen to day, was W Orton.

A fire last night damaged buildings and stock at Nos 64 and 66 Maiden Lane, to the extent of $20 000.

Dellman's glove factory, at Hoboken was burned last night. Loss $30 000.

A man known as Wilson was arrested yesterday on information furnished by his mistress who stated his real name was Logan and that he was a witness of the murder of Charles M Rogers. The man was held to answer. He denies all knowledge of the murder.

POUGHKEEPSIE, N Y, Feb 6. A fire early this morning destroyed a cabinet shop. An old man of 95 years, a German, was suffocated, and three horses burned to death.

CINCINNATI, Feb 6.—The distillery and rectifying establishment of Hamilton & Co on Sixth street, was burned last night. Loss between five and six thousand dollars. Insurance twenty five hundred.

REAL ESTATE AND RAILROADS IN MINNESOTA. Governor Marshall in his late message to the Minnesota Legislature says:

The actual value of the real property of Minnesota is as follows:

Lands and improvements outside of cities and towns	$51 [illegible]
Lots in the several cities and towns and the improvements thereon	[illegible]
Total	$[illegible]

Adding the value of personal property $[illegible] 000 000 we have a grand total of $[illegible] as the actual value of the real and personal property of the State. It is now at more than double the assessed value of taxable property. It illustrates the necessity which I have heretofore expressed, that a more just and full assessment be secured for purposes of taxation.

During the year 18[illegible] there was constructed and opened 2[illegible] miles of railroads.

INDIANS IN COLORADO TERRITORY. Gov McCook in his recent message to the Colorado Territorial Legislature says that for the past year that Territory has been entirely free from the invasions of hostile Indians and there is reason to hope that the petty annoyances of peace Indians will cease within the coming year.

EASTERN COMMERCIAL AFFAIRS

[From the Correspondent of the [illegible]]

NEW YORK, Jan [illegible]. We have a quiet state of affairs in financial and commercial circles with values of merchandise and produce irregular and for the most part weak. The winter thus far has been almost unprecedentedly mild which is not without its influence on the trade in fuel and many other necessaries of life. The Hudson river after a temporary close is again open to Albany, a circumstance that has had no parallel for fifty years. Business men are moving along very cautiously in all their undertakings owing to the general incertitude as to the future of the finances and taxation, and from all appearances the spring trade will be moderate and conservative. There is a general dread of getting into debt which is to be regarded as a healthy feature though prejudicial to trade. Money continues to accumulate and rates are gradually yielding. Gold is quite steady and stocks show a reactionary tendency from the late rise.

CAUSE AND EFFECT

The Panama Railroad and the Pacific Mail Companies down to a recent date were among the most grasping of monopolies. They had the public at a disadvantage, and they did not fail to make the most of it. They had a large traffic, and their earnings were something fabulous. It is not to be wondered at, therefore, that, with good dividends, their shares were popular, nor that the value of those shares should have been run up at one time to 162½ and 330 respectively. But like many other corporate companies and individuals they failed to discover the "handwriting on the wall." By their extortionate charges and imperious action they made enemies of most of their patrons, who, when a new avenue was opened to them, did not fail to "turn the tables" upon their old oppressors by withdrawing patronage. The result is seen in the great fall in the market value of the shares of those companies. A year ago Pacific Mail stood at 125, to-day it is quoted at 42, with more sellers than buyers. Three months ago Panama shares were strong at 245@250, to day they are quoted at 177 bid! I have advised you of the reduction of rates by the Panama road, and repeat that the movement comes too late in the day. The Pacific road is so steadily increasing its traffic, that a double track, at an early day, will become a necessity, while the Southern Pacific road is being pushed forward with such vigor that its completion may be looked for within the next two or three years. These enterprises completed, the occupation of the Isthmus route for traffic will be gone, at least until such time as the ship canal shall become a commercial necessity. The Pacific Mail Company made a fatal mistake in building a class of steamers which have already become practically obsolete. Had they created a fleet of first-class iron propellers, they would now have little difficulty in obtaining sufficient aid from the Government to enable them to cover one or more routes between this port and Europe, owing to the general dissatisfaction of the people with the action of the foreign lines in regard to the transportation of American mails. It is said that the Company are going to retrieve their fortunes by putting on lines to run all other lines out of the Pacific coastwise business. But this project for improving the financial condition of the Company lacks the point of Mrs. Glass's for cooking a hare.

NOT ENCOURAGING

The views of the leading public men regarding the best means of extricating the business interests of the country from the labyrinth of difficulties by which they are environed, are so discordant that the prospect of relief is not considered as good as it was at the commencement of the current session of Congress. Secretary Boutwell appears to be taking a good deal of pains to obstruct the way to fiscal reform. His policy—which he proclaims, on an average once a week—has one fatal drawback. It begins at the wrong end of the problem to which it is addressed. The course of true statesmanship is not to pay the debt too precipitately, but, by lightening the burdens of industry to advance the prosperity of the country, and thereby place the credit of the country on an enduring basis. The question of the debt would then present no formidable difficulties of any nature, in respect to policy, which should be to fund it at a low rate of interest preparatory to its gradual extinguishment. If the present rate of taxation is to be kept up, Mr Boutwell may discover that the sources of revenue will gradually begin to dry up. The demand for relief from the burdens of taxation, no less than for real practical efforts looking to the restoration of a sound currency, is all but universal in the Atlantic States, and Congress will be derelict in its duty if this cry be not promptly heeded.

PANICKY FEELING IN BREADSTUFFS

Flour and wheat are cheaper at present than they ever have been before in this country, with one or two exceptions, even comparing currency with gold prices. The feeling in the market during the last day or two has been quite panicky, owing to the peremptory orders from Chicago operators to sell. The decline of nearly a dollar a bushel on wheat since harvest has crippled the Chicago "cornerers" so badly that they are obliged to realize on supplies which they have been carrying for the inevitable reaction, and as there is no corresponding demand, the market is in a chronic state of depression. The truth of the matter is, the last harvest was largely underestimated. The great decline is, therefore in accordance with the natural laws of trade. Spring wheat has fallen to $1@1 15, against $1 50@1 65 same time last year when the article, as now was thought to be much lower than warranted by circumstances. The California product "hangs fire" and when the 100 000 bushels of this kind shall be worked off, it will be a long time before the owners of this stock will venture to bring wheat around the Cape. The normal price of the California product is $1 40@1 45 without buyers. Some wheat has been closed out at $1 30, that cost $2 25 to land here. At the close an attempt is being made to rally the wheat market.

OTHER CALIFORNIA PRODUCTS

California wool has moved freely this week, the sales reaching some 400,000 lbs, mainly fall clip, at 18@23c, though including some 50 000 lbs pulled price not stated, spring clip nearly all gone and the top price for this kind is 27@28c. Hides are firm the supply being light and the demand good. Dry California are worth 26½c gold. There has been an active speculative movement in California prime brown mustard seed and nearly all in first hands has been taken, the sales foot up 10@1 200 bags on private terms now held at 11c.

CALIFORNIA FREIGHTS

The Cape trade remains in the same old depressed condition, the almost frantic efforts of the "drummers" notwithstanding. The party who shipped nine truck loads of scales to day said he had been waited upon several times by the several "drummers" and that the truckmen were even importuned on the way to the wharf, to change his objective point. I mention this incident to show how exceedingly voracious the lines must be for freight. Of weight there is next to none offering. I understand the *Glory of the Seas* had on board 900 tons, mostly on agents account. Rates are lower and very irregular. So much so indeed that there may be said to be no regular rates. Dead weight can be readily shipped at ½ cent per foot. I hear one of the ships has taken nails as low as 25 cents per keg. Measurement is going at 10@15 cents per foot, the latter is the maximum figure. Whisky has been shipped at $2 25 per barrel, cement $1 50. The *Annie M Small* has succeeded in securing [illegible] about 300 tons railroad material and some ship plank. The agents of the big ships are sorely perplexed for weight.

The Crockett Texas *Journal* boasts as the [illegible] attractiveness of that section of country as [illegible] [illegible] "Immigrants are daily passing through our streets and all bound for Texas. It is no uncommon sight to see a train of at least a dozen wagons loaded with women and children in search for homes in the new El Dorado. We would like to know how much further they intend going in the hunt for Texas."

A New Jersey girl asked all her friends to help her make a rag carpet and when, at the end of the busy day the carpet was completed she sent everybody off without supper because the hired girl had a lame back. The New [illegible] is inclined to carp at this generous proceeding and says "If such a thing had occurred in the United States how the Jersey papers would have blowed about it."

WASHINGTON TERRITORY

[illegible] LAND TROUBLES IN LEWIS COUNTY—[illegible]

[From the Olympia Transcript Feb 5.]

Rev. A. Huntington delivered a lecture on Conservatism and Radicalism last Tuesday evening at the Olympic Hall to a goodly audience and was well received. While he praised radicalism conservatism was rather roughly dealt with, giving some rather pointed political sentiments. Hon O Jacobs will lecture on "The Intellectual Material and Moral Wants of Washington Territory" on Wednesday evening, the 16th inst.

The steamer *Olympia* arrived from Portland on Tuesday evening bringing a few passengers and a considerable freight for this place and Tumwater. Among the latter are goods for the merchants, castings for Davis & Coggan, and wheat for F. N. Cooper. It is said she brought five hundred tons of freight to the Sound. She visited all the principal ports on the Sound.

The Hudson Bay land trouble has broken out fresh in Lewis county. Shooting on both sides is said to have been done, though no injury, except the killing of a horse. The matter will go to the courts we presume. There was much excitement among the people of the county about the affair a few days ago, but we believe it is now quieting down.

The following amount of business has been transacted at the land office in this city, during the month of January. Lands for cash 2,184.41 acres; lands entered under the homestead law, 2,576 50 acres; lands entered under donation law, 303 acres; declaratory statements filed for 1,664 acres. Total, 5,827 92 acres.

The large boys attending the district school, on or about Saturday night last, played rather serious pranks with the school-house and furniture, and on complaint of the schoolmaster were brought up before the committing magistrate and fined from $5 to $7 each.

We learn that Mrs Barry was ordered by the Probate Court to be sent to the insane asylum; but her son, John O'Neal, came forward and obtained a change of the order and leave to take charge of her, and has taken her to his home.

The District Court for King, Kitsap and Skokomish counties will be held at Seattle next week, commencing on Monday next, Chief Justice Denison presiding.

Mr R. S. White has received appointment on the Skokomish reservation of school teacher, from the Indian Department.

The *Echo* learns that the coal mines have been sold to a new Seattle company, for $25,000, who mean business.

A B. Robbeson resigned the office of town Marshal, and Sheriff Billings was elected to fill his place.

Mr N S Pierce has been appointed farmer at the Chehalis reservation, vice Mr. Cyril Ward resigned.

Sickness prevails to a considerable extent among the children in town, several being very ill.

DOWN SOUND NEWS.

[From the Seattle Intelligencer, Jan. 31st.]

An investigation has been held at Mukilteo in the case of Thomas Prout, found dead on the beach east of that place. A Coroner's jury was summoned by M. H. Frost, J. P., and a verdict was rendered "of death caused by exposure and fatigue." It seems deceased left Mukilteo on the morning of the 16th for the mouth of the river; he arrived there, and left towards evening intoxicated. He then proceeded on his way back to within a mile or so of Mukilteo, and his body was found on the 19th.

The telegraph lines during last week, were broken in twenty-eight places in twenty miles, to the north, and in twelve places in the same distance to the southward.

The bark *Osmyn* which went ashore on Whidby Island some weeks since, is still hard and fast. She has sustained no further damage, other than being gradually filled with sand.

[From the Port Townsend Message, Feb 4th]

A post-office has been established by the name of New Dungeness, in the county Clalam, and John Morris appointed postmaster.

At Port Ludlow, a schooner is being built for the California trade, of 160 tons burthen. The mill is running on full time.

The ship *Marseilles*, bound for London, and the brig *Deacon*, for San Francisco, are at Port Ludlow loading.

New York Robs the Whole Nation

[From the St. Louis Democrat.]

Missouri, the former slave State, has just done what New York, long a free State, has just undone ratified the Fifteenth Amendment. To-day New York is more enthralled and downtrodden than free Missouri.—*Burlington Hawkeye.*

You are right, Burlington *Hawkeye!* New York is held in degrading bondage by a gang of thieves, who have plundered the city until it begins to be doubtful whether "self-government" so called, is possible there; who have stolen corporations one after another, and fastened their clutches upon the most important public enterprises, and who, at length, have reduced to slavery the State itself. If endurance election swindling can prevent, it will be many a year before the people of New York ever elect another Governor or Legislature. Robbing the State, now that it has fallen into the power of its captors will follow as a matter of course. Judges who are kept by railroads, and a Governor who comes from Tammany, conspire with such a Legislature as Tammany elects to make New York a disgrace to the country.

Congress is bound to guarantee to every State a republican form of government. It has peculiar reason to ask whether the government of New York is either republican or legal.

Not less than forty or fifty millions are yearly gathered in from the tax payers of New York city, in one form or another, as the plunder of the bandits who rule it. Does that money come from the inhabitants of New York? Burdens fall upon producers. New York is not a producing but essentially an exchanging city, through that port a great share of our exchange of products with foreign nations is transacted, and exchanges are made between East and West, Northeast and South. The burdens imposed by misgovernment in New York city are to a very large degree simply passed over to the producers of New England the South and the West. Everybody who does business with that city helps to fill the pockets of aldermen and the chest of Tammany. In a word those plunderers have their clutches upon the throat of the nation, and they are robbing not the tax payers of New York as much as the producers of the whole country.

Why shall not Senator Morton, or some other expounder of the constitutional power of Congress devise some plan for ridding the country of this burden? When a State presumes to tax the commerce of other States passing over its domain the Constitution interferes. Is there no remedy when a band of plunderers fasten themselves upon the chief commercial city of the nation and tax all its commerce? We don't know that there is. But it strikes us we confess, that New York stands quite as much in need of reconstruction as Georgia.

Move the Capital to the West. That is the first step [illegible] [illegible] by the New York [illegible] [illegible] which is a sort of back kitchen of Tammany. From New York to Washington is too short a distance for men of money. Lobby [illegible] the Capital like an army of locusts at [illegible] of December every year and half of them cross the Jersey ferry. Let us get the Capital a little further out of their reach, and [illegible] some [illegible] measure cannot be devised to [illegible] [illegible] the commerce of the whole [illegible] [illegible] and its plunder by one gang [illegible]. We care little where the Capital shall be [illegible] put it at Burlington if you like, but get it out of the atmosphere of New York. The city and State have become corrupt enough to taint the air in that part of the country.

HOW THEY [illegible] WIVES. The mortality among children in Utah is becoming fearful. Heber Kimball a leading bishop of the Mormon [illegible] has buried forty-eight of his [illegible] and of sixty deaths in Salt Lake [illegible] during the past month forty four of the victims were children. These are some of the blessings of the system of inter[illegible] among the people of Mormon faith.

Williams on "Fundamental Conditions."

ready known to the country that in the terms upon which Virginia was ad... to representation in Congress the lib... Republicans gained a signal triumph over ...as represented by Sumner and Drake Senate and Butler in the House men ...ay with fairness be termed as the vul... rase goes in Texas "Bitter enders" already known too, that our Senators operated with the liberal Republicans effort to prevent further delay The ssional Globe furnishes specific inf r... however, of the part taken by our ors in the earlier stages of the discus... which we did not get by the telegraphic s

ill be remembered that there were of n succession of propositions called amental conditions," most of which properly voted down We find the of our Senators (so far as we have the d) down in the negative upon nearly all propositions. We have the following nstance—a "fundamental condition," d by Senator Drake

nded, That should the Legislature of said at any time hereafter pass any act or reso purporting to rescind, annul, or retract its ation of the fifteenth article of amendment Constitution of the United States the pas of such act or resolution shall operate to ex said State from representation in Congress o remand said State to its condition immedi prior to the passage of this resolution

on this the yeas were eleven, the nays four, Corbett and Williams both voting

At another stage of the proceedings, Drake offered the following "fundamen-ondition."

d provided further, That said State is enti o representation in Congress upon the fol g further fundamental condition that the slature thereof shall have no power to pass act or joint resolution purporting to rescind, l, or retract its ratification of any amend to the Constitution heretofore ratified by it

n this proposition there was a colloquial ate between Messrs. Drake, Williams and wart—both the latter opposing Mr Wil-s took the position that the Congress of United States has no power under the stitution to impose a fundamental condi-upon a State which deprives it to any iderable extent of its State sovereignty n equal in the Union of the States; that amendment ... from the e of Virginia that power which the State Massachusetts or the State of New York exercise; that it proposes to bind Vir-a for all future time, no matter what con-ency may occur, no matter how uni-al or imperative the demand may be by American people for a change in the Con-ution of the United States, that it could e no validity whatever; and that he did believe the future acts of Virginia would nvalid because of being in conflict with fundamental condition. He did not t any legislation merely to produce a al effect. The acts of Congress should be sted with some regard to the question ther the courts would sustain them as stitutional He would vote for the admis-n of Virginia, notwithstanding this funda-tal condition (should it be attached), but proposed to admit her without conditions. give the following extract from the close is remarks:

think it is possible that the judgment of the ate, if affirmed in favor of these fundamental itions, may be condemned by the people of United States at some subsequent time, and t ossible that some State may legislate in con-with these so-called fundamental conditions, the question may arise before the judicial nals of the country as to whether the State s valid or not, and the courts may decide these fundamental conditions are invalid, as ieve they would decide.

the State of Virginia, after she is fully re-d, passes a law clearly within her jurisdic as a State, and not in conflict with the Con tion of the United States or any of the laws ongress, I believe that the courts would hold that law would be valid and against these amental conditions.

he amendment was rejected by a vote of o 44, all the Pacific coast Senators voting nst it. So, throughout the discussions he Senate we find Senator Williams king and voting against all amendments ulated to impose hard terms upon Vir-a, or to retard her admission. The result a gratifying triumph of that liberal spirit policy which, thanks to such men as liams, Stewart, Trumbull, Bingham and er leading Republicans, is now the rule in gress. We think the course pursued by Senators in regard to the Virginia ques- was exactly the right one, and that it will e the approval of nine-tenths of the Re blican party of Oregon.

Direct Trade.

he New York commercial correspondent the *Bulletin* refers to the effort to establish direct line of freighting vessels between w York and Portland, rather contemptu-ly, thus:

he direct trade which your Webb-foot neigh s were going to build up between New York Portland, Oregon, to curb the progressive dencies of their California neighbors, don't n to 'pan out' well They have loaded some e or four small vessels in three years, the last which, the bark *Ida Taylor,* just departed, has n more than four months on the berth

This quotation, beside the illiberal and ntemptuous allusion to our direct trade, ntains at least two statements which do no nor to the truthfulness or candor of the respondent Instead of having loaded ee or four small vessels, the line has sent en vessels, some of them of large ton ge Instead of having been three years gaged in the effort to establish this line, company despatched the first vessel in summer of 1868, less than two years ago But we have not alluded to this matter al ether for the purpose of correcting the *lletin* s correspondent, but partly to express natural surprise which everybody enter ns that the Portland merchants should ve stood off so long from the support of s direct line of shipment, the establish-nt of which is of such great import to the ate The fact that the last vessel des ched was four months on the berth be e her cargo was completed is astonishing en taken in connection with the fact that have received in that time not less than enty cargoes of goods from San Francisco every one of which we have paid tribute profits to the San Francisco middle-men d of transportation to the steamers and sail s bringing them Freights to Portland from w York are no more than to San Francis

Where, then is the policy or the good nse in buying our goods where we must y the additional freight from San Francis- to Portland and large profits also to mid e men? Why is it that our consumers ust forever pay tribute to the city which ways did and always will crush every Ore-on interest when in its power? We have eard it said by way of explanation, that the bed rock of many of our commercial ouses is San Francisco money, and that their combined influence is so powerful as to be almost irresistible and it is all exerted to crush the Pioneer line We need not detail the means resorted to by San Francisco agents in New York to steal away the patronage which the line would naturally get They are in no way amenable to Oregon for what they do But the importers of Oregon who lend their influence against the direct line if there be any such are justly chargeable with doing a great wrong to the State They are making the consumers contribute to the wealth and commercial importance of San Francisco at the expense of Portland and all Oregon It is for the interest of our people to establish direct lines of shipment with all possible points We understand that through the influence of San Francisco importers there is danger that the Pioneer line will be a failure If this be so a general movement in its support cannot be made too soon

The 15th Amendment

Twenty eight States have now ratified the 15th Amendment, if New York and Ohio be both counted The list of ratifying States stand, as follows

1	Nevada	15	Florida
2	Louisiana	16	New Hampshire
3	West Virginia	17	Virginia
4	North Carolina	18	Vermont
5	Illinois	19	Alabama
6	Michigan	20	Kansas
7	Wisconsin	21	Missouri
8	Maine	22	Indiana
9	South Carolina	23	Minnesota
10	Pennsylvania	24	Mississippi
11	Massachusetts	25	Rhode Island
12	Arkansas	26	Ohio
13	New York	27	Iowa
14	Connecticut	28	Georgia

Texas and Nebraska will ratify in due time so that that there can be no constitutional question raised about the validity of the amendment, even should the ratification by New York be pronounced void by the courts, and even should the action of Ohio be held also invalid, of which there is not any reasonable probability The column of rejecting States will consist, when completed, of Kentucky, California, Oregon, Tennessee, Maryland, New Jersey and Delaware

Editorial Notes

The Boise *Statesman* is pathetic in its appeals to the people and to the powers that be to save Idaho from dismemberment; and at the same time is "discussing" in favor of cutting off a slice of Utah and attaching it to Idaho. Did the *Statesman* ever hear the old saying about "sauce for the goose," etc

The late vigilante proceedings in Pierce county, Washington Territory, seem to have been expensive as well as bloody and disgraceful. A Pierce county correspondent of the Olympia *Transcript* expresses the opinion that the troubles which culminated in the death of two men, cost the county not less than fifty thousand dollars. There had been several shooting and lynching scrapes, before the late terrible tragedy.

The piece which our Representative Smith did not speak in the House appears in print in the Congressional *Globe* of Jan 14th. He got permission to print it It is all about the reconstruction of Georgia In due time we shall have in print another piece which our Representative Smith did not speak in the House, all about the admission of Virginia He got permission to print that In the latter, we shall trust to find an explanation of the "strict party vote" by which Virginia was finally admitted, with the specific reasons which induced our Representative Smith to vote against admission.

The *Commercial* looking from a stand-point which if not neutral is nearer Democratic than anything else, discovers from what the miners call "surface indications" that "there is even more trouble and inharmoniousness among the Democrats than appear in the Republican ranks." The surface indications, so far as we can judge, are extremely faint compared to the solid chunks of discord which lie below among the Democracy of the bed rock persuasion The inharmoniousness just now is something more threatening than that "small cloud upon the brow of the people," which so tickles the fancy of the *Herald.* If half the hard things now said of one another, are to be hurled at the Republicans in the coming contest, the latter should seriously consider the propriety of putting on double defensive armor.

There is a trick of the mail agents to which we desire to call the attention of Postal Agent Underwood We cannot say that it is exactly within his jurisdiction, but he can, doubtless, effect a cure of the evil in question Sometimes our overland letters and exchanges come by was of Boise and the Dalles, reaching us from Chicago in about eleven or twelve days. At other times, similar matter sent from the same mailing office, reaches us by way of Sacramento, having been from five to six days longer than the average time required by the other route For instance, the Chicago *Republican* of the 20th January reached us on the 1st day of February The issue of the 19th reached us by way of Sacramento on the 5th day of February Since the issue of the 20th we have received none at all, the whole batch having probably gone by way of Sacramento They ought all to come by the Columbia route, and that is what we ask

Oregon Matters in Congress

In the Senate on the 13th January, Senator Williams submitted the following resolution, which was considered by unanimous consent, and agreed to

Resolved, That the Secretary of the Treasury be requested to inform the Senate as to the necessity and expediency of constructing a harbor light house at the mouth of Yaquina Bay, in the State of Oregon with an estimate of the cost of such a structure

On the 14th January Mr Corbett, from the Committee on Commerce, to whom was referred the joint resolution to extend the port of entry of the collection district of Oregon reported a bill as a substitute "to establish the collection district of the Willamette in the State of Oregon" The bill was read and passed to a second reading It will be found in another place in this morning's paper

In presenting a petition from the iron companies of Pennsylvania in regard to contemplated legislation upon iron ... and ... correcting a statement of Commissioner Wells in relation to the cost of pig iron Mr Corbett remarked I will state in connection therewith that the cost of producing pig iron in the State of Oregon is thirty one dollars [illegible] I think this question should be thoroughly examined before any action is taken upon it The petition was referred to the Committee on Finance

On the same day Senator Williams from the Committee on Public Lands to whom was referred the bill (S No 107) to extend to the mouth of the Columbia river the land grant heretofore made for a railroad in Oregon reported adversely thereon and it was ordered to lie on the table In lieu of this bill Mr Williams from the same Committee reported a substitute A bill granting lands to aid in the construction of a railroad and telegraph from Portland to Astoria and McMinnville in the State of Oregon which was read twice by its title, and on his motion referred to the Committee on Public Lands

On the 17th Mr Williams from the Committee on Public Lands reported this bill back to the Senate with amendments

THE CENSUS BILL IN THE SENATE

[From the N Y Times Jan 21]

WASHINGTON Jan 20 The Senate as your correspondent has already intimated is apparently determined to strangle the census Senator Conkling's committee have smothered the bill upon which the House bestowed so much labor and the day Mr Conkling reported a bill of half a line simply reciting that the census should be taken under the old system and gathering the Secretary of the Interior to make such changes in the schedules as the late amendments of the Constitution require This revives the old Marshalship system with all its imperfections It is difficult determining the motives which actuate the Senators in their opposition It would be unjust or perhaps they that Senators ... because it gives them the house a chance to secure the appointment of a certain number of officers in each Congressional District but it is nevertheless true that there are Senators who are not above such such a feeling I may be however ... feeling ... but it is ... the most ephemeral kind and only crops out at long intervals in the Senate The result will probably be that the question will finally get into a Committee of Conference of the two Houses where something will be evolved the nature of which is impossible to predict

MR WELLS' REPORT IN THE HOUSE

The high tariff party have met with their first signal defeat and it may be accepted as an indication of what is in store for the efforts to maintain the present incongruous and burdensome tariff system. Mr Laflin, Chairman of the Committee on printing reported back the Senate joint resolution to print 5,000 copies of Commissioner Wells report for the use of the Senate, and 12 000 copies for the use of the House He made a short and eloquent speech in its favor and was followed by his colleague on the Committee, Mr Cake, who though opposed to the report would print this one, because it was the last Then followed a very general and spicy discussion lasting nearly two hours, in which Dyer, Maynard McCarthy, Kelley, Butler and Bailey spoke against printing, and Laflin, Brooks Mungen Randall Hay Garfield, Marshall, Peters Logan Stevenson and ... in favor of printing The chief speeches made against the resolution were by Maynard who seems to grow narrower and more bigoted with every session McCarthy, whose salt interest inspired him to compare Mr Wells with Benedict Arnold Mr Kelley, who is the most earnest, most consistent and most industrious of the high tariff advocates Butler dwelled at some of the statistics of the report, and voted against printing it, but he believes in the report, nevertheless Under the previous question the vote stood 125 to 51, and the monopolists had not the courage to demand the yeas and nays on its passage Mr Laflin closed in an eloquent speech, and the bill passed without a division

THE NEW YORK LEGISLATURE—DEMOCRATIC DISSENSIONS

ALBANY, Thursday, Jan 20, 1870

The dissensions among the New York Democracy about the kind of Municipal Government that shall be substituted for the odious "Republican Commissions" still continue, and are growing fiercer every day From present prospects it is doubtful whether any legislation with regard to the Commissions can be brought about for weeks to come, Mayor Hall and Comptroller Connolly came up yesterday and were busy all last night trying to harmonize the conflicting elements and persuade the city delegation to agree on a new charter for the city, but thus far they have not met with much success There is also a fierce conflict going on among the Democratic Senators over the Governor's nominations No less than six members of that body utterly refuse to confirm the nominees already sent in by the Governor until they are assured that the men of their choice are entered on the list of those yet to come. The strife is mainly over the Harbor Masters, Port Wardens, &c, none of whom have yet been nominated by the Governor. What with the fight between the different factions of the party in New York, and the war between the Democratic Senators and their Governor, the Democracy of the State of New York, as represented in the Legislature, is in a bad way It is needless to say that the Republicans here enjoy the sport and are entirely indifferent as to the result

DEATH OF GOTTSCHALK.

The steamship *South America,* which reached this port from Rio de Janeiro last night, brought very sad news, Louis Moreau Gottschalk, who intended to revisit this country in the fall of the present year, died at Tijuca, near Rio, after a three weeks' illness, on the 18th day of December last The simple announcement of this fact could not be supplemented at the late hour at which it was received, by any of the events of which a rehearsal will be awaited with painful interest Few men enjoyed greater popularity, and none more numerous and cordial personal friendships than the dead pianist His reputation was worldwide Born in New Orleans in 1829, he left the United States in 1841, and for four years studied music in Paris In 1853 he recrossed the Atlantic, and in February gave his first concert in this city His subsequent career cannot now have recapitulation A few weeks ago its latest triumphs were reviewed in a letter from Gottschalk's own pen, and published in the *Times* The deceased artist was a *litterateur* and a linguist as well as a musician, and had contributed to the *Atlantic Monthly* and to numerous foreign periodicals A young brother, and three sisters, well known in musical circles in London, survive him

THE WOMEN'S CONVENTION IN WASHINGTON—SENATORS WILSON AND TIPTON COUNTENANCING THE MOVEMENT—AN OLD ABOLITION SPEAKER CLAIMS MRS STANTON'S PROTECTION—SUSAN AFTER SENATOR SHERMAN—ADJOURNMENT

[From the N Y Herald Jan 21]

WASHINGTON Jan 20, 1870

The Woman's Suffrage Convention closed its session last evening The hall was crowded to its utmost capacity Among those present was Senator Wilson, who, upon being invited to address the Convention, made a short speech in which he stated that whenever he had a vote to give it would be given to remove any burden from the people and grant the same rights to women that men possess

Mrs Stanton said she was very glad the Senators were coming forward to a position in the front ranks of the Women's Grand Army of the Republic

Senator Tipton was called on to address the Convention, but he said he came to listen, not to speak

Mrs Rachael Moore Townsend of Philadelphia, Mrs Pauline W Davis, of Rhode Island and other ladies, spoke, all of whom have heretofore addressed the Convention

The resolution presented on the first day's meeting in favor of a sixteenth amendment to the Constitution providing for female suffrage was discussed and afterwards adopted

The attendance this evening was quite large and generally attentive, although when Rev Mr May rose to speak for the third time they manifested their preference to hearing the ladies by applauding him in a way to prevent his speaking The reverend gentleman announced himself as an old abolition speaker used to this sort of thing, and declaring his intention of fighting it out on that line

Mrs. Stanton came to his rescue and said he had but a few words to say and it would save time to hear him, and at last secured attention long enough for him to make a few remarks

Mrs Charlotte Wilbur read an address upon the necessity of woman's elevation in order to develop her higher and better nature and the necessity of her acting on her own behalf

Miss Anthony gave a glowing account of the success which had attended woman's suffrage in Kansas

Mrs Stuart spoke of the manner in which individuals were controlled by the association and showed that as the members of the woman's family ... individual action could not be wholly independent She urged the girls to learn some trade or profession by which they could support themselves if necessary In referring to the social evil she reminded the men in high places that the haunts of vice were not filled from the ranks of the poor ... from the gay and fashionable where they had not learned to support themselves by any honorable occupation

Miss Anthony again took the floor, and after giving a [illegible] of [illegible] meetings, was proceeding to speak on the manner in which the democrats had extended the franchise to the laboring classes and thereby secured their votes when Mrs Stanton whispered in her ear Oh yes I'll stop [illegible] said Miss Anthony I am told Senator Sherman is in the hall, and we shall hear what the republicans are going to do and what the democrats did [illegible] Senator Sherman, come right up here on the platform There were loud calls for Sherman and the Senator at last rose and said I came here to night to listen and it is impossible for me to make a speech to night

Miss Anthony But Senator that does not satisfy us What are you going to do and are you going to vote for the sixteenth amendment? She however upon a moment's reflection concluded that if the Senator could not say yes she would rather he would not say no Miss Anthony then resumed her theme when Professor Wilcox whispered in her ear There is a democrat in the house, we will hear what he has to say Call him Will Judge W ... forward?

A gentleman near the door said the gentleman had just passed out

From files of the Victoria *Colonist* to Feb 1st, we gather the following items

A miner named Michael Fry has passed five years on Peace River engaged in mining and is said by his friends to have accumulated many thousands of dollars in gold dust The diggings he now works and his present whereabouts are unknown, About one year ago he remitted a purse of $3,500 in gold to his daughter a young lady who resides on the Mainland Fry went over to Omineca from Cariboo with the first party of prospectors in 1864, but separated from them in 1865 This party brought down $4 000 or $5,000 in gold dust They only worked on the bars of the Findlay Branch, the diggings of which were very soon exhausted Vital la Force and his party have sensibly chosen the banks and bars of a small tributary of the Findlay Branch, where they find the pay dirt from two to four feet deep and producing an average of two ounces per day to the hand

The Government has returned an answer to the memorial asking for the establishment of direct steam communication with San Francisco While recognizing the necessity for frequent and cheap communication, Government meets the petitioners with the old excuse "no money" The reply, however states that should the Hudson Bay or any other company of capitalists desire to establish a line of steamships, Government would be happy to entertain any proposition they might have to make

The Cariboo passengers and express were brought from Yale to New Westminster in a canoe The river was frozen in places and four portages over the ice had to be made at considerable risk to life Some $25,000 in treasure had to be left behind at Yale The sufferings of the passengers are said to have been acute during the five days consumed in the trip

The Municipal By law levying a tax of $2 on each male adult resident in Victoria School District, received the sanction of His Excellency the Governor on the 27th inst and will come into force in fourteen days thereafter.

Government offers a reward of $500 for such information as will lead to the apprehension and conviction of any person or persons concerned in the destruction of the Crown Hotel, at Esquimalt.

Our citizens will shortly be favored with select readings from Dickens by Mr Pauncefort the English gentleman who lately played a short but successful engagement at the Theater Royal

There is a rumor afloat that the British Government is sending out a swift dispatch boat to carry the mails regularly between San Francisco and Victoria

CITY.

FLAX CULTURE Mr E Cartwright of this [illegible] agent for the California [illegible] Mills for the purchase of flax seed has removed his agency to Albany. Until last year this company had imported the seed they used from East Indies the soil of California not being adapted to the growth of this commodity. Nearly two years ago the Company was induced to establish an agency here to encourage the cultivation of flax in Oregon and last year about 1 [illegible]00 bushels of seed were sent from the Wallamet valley as the result. This season Mr Cartwright has contracted for the product of 6 000 acres in Linn county lending the seed to farmers until next harvest. An average yield per acre is 25 or 30 bushels and the agency pays 2½ cents per pound for the crop delivered at Albany. The seed used is the Bombay or large seeded flax yielding a prolific crop of seed but producing fiber small in quantity and unsalable on account of its inferior quality. Mr Cartwright thinks that 150 000 bushels of seed will be shipped from Oregon this year

The Pioneer Oil Mills of Salem which manufactured 60 000 gallons of oil during the past year and expect to turn out 100 000 in 1870 have contracted for the crop of seed from 3 000 acres this year. The agency of the last named company will be continued in this city. The Cartwrights who have done much to develop the resources of Oregon in this respect have invented a screen for cleaning the seed which has hitherto proved a tedious and annoying process. This screen does the work well and rapidly and will no doubt soon come into general use. The farmers of our State are turning their attention to this branch of agriculture and with the establishment of the linen factory, now in contemplation at Salem flax growing will become a leading feature of our farming interests. The land said to be best adapted to its culture is the upland or ridges similar to that producing the best winter wheat

THE IDA F TAYLOR.—The bark *Ida F Taylor* of the New York and Portland shipping line which left New York about the first of January for this port direct, brings the following freight Alum, 12 bbls, books, etc 19 cs, drugs 95 pkgs ink 26 pkgs, agricultural implements, 134 pkgs agricultural implements 658 pcs machinery 88 bxs coal oil 350 cs, cider mills 13 bxs, furniture 15 cs carriages 4, sawmills 4 paints, 95 pkgs felloes, 993 grindstones 14 canned goods 1 500 cs cement 250 bbls, baskets, 756 pkgs powder, 981 pkgs merchandise, 103 pkgs, whisky, 35 bbls slates, 38 cs, wagon material 63 cs, hardware, 1,349 pkgs, woodware, 23 pkgs, soap 2 306 bxs, soap, 1,000 qr bxs, grist mills, 3, children's carriages, 9 cs pianos, 9, plank and axles 555 pcs, naval stores 90 pkgs, stove castings, 313 pkgs, marble, 38 pcs molasses 1 bbl nails, 150 kegs, candles, 499 bxs, plaster, 100 cs, spirits turpentine, 300 cs, brushes 4 cs, sundries, 50 pkgs

ROLL OF HONOR —The roll of honor for the month ending Feb 4th in the North School, contains the following names

U S CIRCUIT COURT —In the United States Circuit Court, Hon Matthew P Deady, Judge, the proceedings of yesterday were as follows

D H. Hildburgh et al, libelants vs The Steamship *Oriflamme*, N P T Co claimants, the arguments on exceptions for immateriality, to amend libel heard and the exceptions allowed at libelants' cost. Freidenrich for libelants, Mitchell for claimants

In the matter of the petition of the creditors of L H. Ouimette, in bankruptcy, demurrer to part of answer, argued and taken under advisement. Whalley and Thayer for petitioning creditors; Mitchell for claimants.

Court adjourned until Monday, 14th inst

INSTALLED.—The officers elect of St. John's Lodge of Good Templars were publicly installed on last Friday evening. After the installation ceremonies were concluded, the lady members set out a sumptuous collation, of which all partook with great relish and then joined in social merriment until a late hour. The officers for this quarter are, W C T, B O Severance, W V. T, Mrs. Sarah Paul, W. S , J C Gillett, W A S, C. Palmer, W F S, F. A Learned, W T, Mrs. E. A. Learned, W M., L. B Chase, W D M , Miss Fannie Severance, W I G , C D Payne, W O. G , Edgar Severance, W R H S , Mrs. M. A. Severance, W L H S , Mrs M Richards; W. Chap , A M Roberts

A FIRE.—Last night about half past seven o'clock, a fire broke out in the wholesale dry goods store of Messrs Baum Brothers, on Front street, which was near being a conflagration of considerable extent. The flames originated in the rear part of the building near the stove, and spread to some of the goods adjoining. The alarm being given the Department was out in good time, and fortunately subdued the flames before it had done any serious damage. The building was uninjured and the damage to the goods will probably not exceed two or three hundred dollars though it was impossible to ascertain the exact extent last night.

GETTING LOW —The river at this place is again getting quite low for the season. Unless the present rains continue, we will soon have it down to low water mark again. This would be a misfortune much to be regretted as we learn that a large quantity of freight still remains up the valley waiting for transportation. Notwithstanding the P T Company have been running all their boats above the Falls, they have been unable to bring down the large quantity of produce offered

THEATRICAL —The inclement weather and two alarms of fire last night, doubtless kept many people away from the theater, so that the audience was not so large as usual. The performance was vastly amusing to those present. This evening being the last appearance of Joe Murphy, everybody who has not seen him in his unsurpassed comicalities and eccentricities should go and witness his Handy Andy and Persecuted Dutchman.

PROBATE MATTERS —Yesterday in the County Court, Judge Marquam presiding in the matter of the estate of William A Ebinger, deceased C B. Upton was appointed guardian *ad litem* of the minor heirs. In the matter of the estate of Thos Northrup, deceased Hon E D Shattuck was appointed guardian *ad litem*, of minor child. The County Court adjourned until ten o clock this morning

PERSONAL —Mrs Frances Fuller Victor, known in literary circles on this coast as the author of some choice articles published in the Oregon and California papers and magazines, has been stopping in our city for a few days. A book promising to be a work of rare interest to readers throughout the northwest from the pen of this lady will be offered to the public in a few days

WILL SAIL —The bark *Helen W Almy* has about completed her cargo and will probably go down the river to day. She carries about 350 tons of freight consisting of wheat flour mess pork and an assortment of other Oregon products. The steam tug *Astoria* which has been receiving some additions in her furnishments will tow the *Almy* to Astoria

KILLED —The father of the child who was bitten by the dog on First street on Sunday took the matter into his own hands and shot the vicious canine. He was perfectly justifiable and the chaining up of some more of these animals which are continually prowling and snapping at the heels of passers may save the necks of the useless curs

WOUNDED —A correspondent of the *C[illegible]* says that a lad aged 10 years son of Mr Latourell living near Rooster Rock was badly wounded by the accidental discharge of a gun on Washougal river a day or two since. Four or five buckshot were lodged in the boy's breast and arm

MEETING OF CARPENTERS —A meeting of the carpenters of this city is called at the Temperance Library Rooms, for to-morrow evening at half past seven o clock. The object is to take steps toward the organization of a protective union just the character of which we are not advised

BACK FOR REPAIRS —The steamer *Mary Bell* which left here about one week ago for Astoria broke her shafts and [illegible] have the necessary repairs made. She is now lying at Montieth's where the impaired machinery was taken yesterday

PROMPTNESS —The promptness with which Messrs Corbett & Macleay as agents of the Imperial Fire Insurance Company paid Mr Opitz his loss by the late fire, has brought that gentleman out in a card which is published elsewhere

R[illegible] —Two men were before the Recorder yesterday, one for defacing a building was fined [illegible] which was paid, the case of the other assault and battery was continued until this morning at ten o clock

A BALL —The young men connected with the *Chebra Ahim Shalom* a Hebrew Society in this city are preparing to give a grand ball on the 1st of March at the Harmonic Hall in aid of a benevolent cause

APPOINTED —His Excellency Gov Woods has re appointed Ward S Stevens Esq of this city a Notary Public for the county of Multnomah and he has opened an office at No 104 Front Street

WILL CONVENE —The United States Circuit Court Hon M P Deady presiding will convene at 10 A M to day

TELEGRAPH —The line south was down again last night. That to the northeast reports colder weather at the Dalles

FROM SAN FRANCISCO —The *M[illegible]* will sail from San Francisco for Portland to day

Collection District of Willamette

The following is the text of Mr Corbett's bill to establish the Collection District of Willamette introduced in the U S Senate Jan 14th

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all that portion of the district of Oregon, situated above the junction of the Willamette and Columbia rivers and drained by said rivers and their tributary waters, is hereby constituted a collection district to be called the Willamette district whereof Portland shall be the port of entry and a collector shall be appointed for said district, to reside at Portland, and said collector shall be allowed a salary of one thousand dollars per annum with the fees allowed by law such salary and fees not to exceed in any one year three thousand dollars

Sec 2 *And be it further enacted* That the master of every vessel entering the Columbia river from the sea and bound for Portland shall exhibit his papers to the collector of the port of Astoria and deposit with him a sworn copy of the manifest of cargo , and if said vessel be laden with domestic merchandise or merchandise in bond for Portland, the collector at Astoria shall permit her to proceed to her place of destination but if she shall have dutiable merchandise on board not bonded, he shall cause a customs officer to proceed on board said vessel to Portland, who shall see that no goods are landed from such vessel before her arrival and entry at the latter port. And the necessary expenses, including the per diem of such officer and the expense of his return to Astoria, shall be paid by the master of such vessel to the collector of customs at Portland, for the use of the United States, before permit shall be given to unload

Sec 3 *And be it further enacted*, That all vessels clearing from Portland, and bound to sea, shall on arrival at Astoria report to the collector, and the master of every vessel so reporting shall leave a copy of his manifest, including any additional cargo taken on board after leaving Portland, with the collector at Astoria and thereupon shall be allowed to proceed to sea. And the master or other person in charge or command of any vessel entering the Columbia river from the sea, or clearing from Portland and bound to sea as heretofore described, who shall neglect to exhibit his papers or to report to the collector or to deposit his manifest as herein required shall forfeit and pay the sum of one hundred dollars

Sec 4 *And be it further enacted*, That when a vessel shall arrive at Astoria from sea having merchandise on board for that place and also for Portland, such vessel shall enter at Astoria and discharge such portion of her cargo as is destined for that place, whereupon the collector shall cause her hatches to be closed and sealed and shall then permit her to proceed to Portland in charge of a customs officer as hereinbefore provided

PERSONAL —The Washington correspondent of the Oregon *Sentinel* makes mention of the following Oregonians at Washington city

H R Kincaid of the Oregon State *Journal*, has a clerkship in the office of the Secretary of the Senate

E L Jones, formerly a partner of Governor Gibbs, has a second class clerkship, in the loan branch of the Treasury Department

Judge Oliphant has a third class clerkship in the General Land Office

Dr L S Thompson is keeping a broker's office on F street, getting four and five per cent per month, loaning money to the destitute clerks &c

Col. J. S. Ruckles, and J R Robbins are here, looking after procuring titles for the lands donated to the State of Oregon for the construction of a military wagon road from the Dalles to Old Fort Boise, which has been constructed by the Dalles Military Road Company. They are its acting agents.

R P Earhart, administrator of J W P Huntington's estate is here, settling the business of the Superintendency in the Department. Mr Shurtleff is assisting him. There is but little trouble about it. They will be able to save his securities harmless, because the United States have priority over his private creditors but his estate will be insolvent

H W Scott, editor of the *Oregonian*, is here, looking at and learning how "Uncle Sam" does up the business of the people

Shubrick Norris, of Portland, Oregon, is here, on banking arrangements

General Howard has written to Governor Scott that the rich planters in South Carolina are repaying very slowly the moneys due on account of supplies advanced by the Freedmens Bureau, and in order for him to fulfill his obligations, it will be necessary for them to pay up immediately. He says the poorer classes—both white and colored—have been the most prompt and still evince the most disposition to pay to the full extent of their ability

B L STONE'S extensive stock of Jewelry Watches Clocks &c together with his excellent plan of small profits and quick returns has placed him in the front ranks of his business in this city. He has fairly [illegible] shown himself to be a true business man and he must succeed

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will very probably build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kuhn & Fishel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They manufacture the neatest Boys Suits and always have on hand a large stock of the same which are offered at lowest figures

NORTHERN PACIFIC RAILROAD —Recent advices indicate that the enterprise will soon be commenced and persons who desire to make a safe investment that must soon appreciate many times in value will do well to call and subscribe to the few remaining shares in the Puget Sound Homestead Association. Subscription can be made at the office of the Secretary No 6 Washington street or with Mr Conklin. Canvassing Agent

REMOVAL —J W Campbell has removed his new Patent Bed Bottom manufactory to Messrs J[illegible] & Rottleson's Cabinet and Carpenter shop northeast corner of Morrison and Fifth streets. Although but recently introduced the M[illegible] [illegible] is fast [illegible]

What the Miners say of Hostetter's Stomach Bitters

During the season when the Gold Harvest is generally suspended and the reapers of the glittering crop seek the cities to enjoy themselves there is of course a good deal of conviviality among this enterprising and hard working class; but dram drinking is not carried to the excess it was some years ago. This may fairly be attributed to the disease engendered by the use of HOSTETTER'S STOMACH BITTERS. This famous stomachic is in universal favor with the miners. They take it with them to the interior and use it regularly not as a beverage but as a strength-sustaining tonic and an antidote to the unhealthy influences to which they are exposed in the localities where they labor and on returning to the cities and towns, they find in its refreshing and invigorating properties the best safe-guard not only against the diseases but against the dissipation of crowded communities. It is one of the peculiarities of the preparation that it is an antidote to inebriety. Those who take it as an appetizer and invigorant aver that they have no desire whatever for liquor of any description and whatever fanatics may think to the contrary HOSTETTER'S BITTERS is a powerful ally of the temperance cause. It is because unmedicated alcohol weakens the stomach and nervous system by its reaction that it begets a craving for itself. It excites and when the excitement passes off debility ensues and more fuel is needed to renew the artificial fire that has, so to speak burnt itself out. But the effect of the great vegetable tonic and alterative is to invigorate the system permanently and healthfully

What the Hon W T Ballou says about the King of Pain

SAN FRANCISCO Dec 1869

Dr J J McBride—Having suffered with sciatic rheumatism some months I was induced to use your King of Pain. I take pleasure in recommending it to those afflicted with rheumatism. I know of several cases of neuralgia that have been cured by using it

Card from Harbor Master

SAN FRANCISCO Dec 2, 1869

To Dr McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months, and although I have had medical advice and tried a number of remedies none has relieved me until I tried Dr McBride's King of Pain which has done me more good than all the other remedies I have tried

DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS

A CARD.

SAN FRANCISCO Oct 16 1869

DR McBRIDE—My Dear Sir. For the last six or seven years I have been afflicted with rheumatic pains, from my knees down embracing all the joints of ankle and toes. These pains have come upon me periodically every year about this season of the year. My knees and ankles, and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady. These pains would continue for a period of from three to four months every year and they have been regular, unfailing annual visitors. I have been accustomed to apply for relief to the best citizens of San Francisco and have not failed to use all the popular remedies known to the public. I would sometimes receive temporary relief after long continued application but it would never fail to return in a few days with increased severity

About two weeks ago, while my pains were upon me I saw you at the corner [illegible] streets and heard what you said about your King of Pain. I confess that I listened to you with deep distrust; indeed, I may say that I did not believe your statements. [illegible] thought I. It is only a dollar and I'll patronize the humbug one dollar's worth. I bought a bottle and tried it first on my knee which was fearfully swolen and from which I suffered very severely. The second night I tried it again and my dear Doctor you can judge of my surprise ecstacy and delight altogether when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared. My knee joints were as supple as when I was young. I actually danced with delight, much to the amusement of my friends, who had been in the habit of regarding me as a decrepid old rheumatic. It has now been two weeks and I have not felt the least symptom of return. I believe I am cured, and I feel so grateful to you that I offer you this statement verified by my oath to be used by you in whatever way you may think proper and I feel it a duty to let others similarly afflicted know where they can find relief

I am yours very truly RAPHAEL LOOKAYNE

State of California city and county of San Francisco. On this 16th day of October 1869 personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid Raphael Lookayne known to me to be the person who signed the foregoing letter and who being by me duly sworn deposes and says the contents thereof are true

T W TALIAFERRO Justice of the Peace

TO THE PUBLIC

Gratefully for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts. For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight. A score of physicians had pronounced my case as hopelessly incurable. I had even heard my days numbered by doctors and friends. In the agonies of my neuralgia pain I sought the great King of Pain. Under that benign influence [illegible] health [illegible] more medical aid than I had [illegible] for long weary months. My sight was so much restored that I could read print although I had needed a guide to find Dr McBride's office an hour before. Before leaving his office I had regained the use of my almost paralysed limbs and seemingly my strength had returned while all those aches and pains my constant companions were dissipated and [illegible] I [illegible] undertook treatment with Dr McBride and I can say unhesitatingly that I am restored as I could not have expected to have been in so little time. My eyesight is most perfectly regained my whole physical system corrected and undoubted health

My residence is in Reading [illegible] business at No [illegible] Cambridge street in that city where I will willingly vouch in person for the truth of the foregoing to any one interested

The Years.

e we the years, that I should bring
leaves to crown them King?
barren sands, the thistle and the brier,
love, and mocked desire,
cost and pitiless as the sea,
their gifts to me.

I owe the years, that I should love
ing the praise thereof?
the lark's clear carol wakes with morn,
winds amid the corn,
ary cymbals; but I miss the joys,
ng the tender voice—
a throstle's after April rain—
may not sing again.

o I owe the years, that I should greet
bitter, and not sweet,
ine, and wit, and laughter? Rather thrust
wine cup to the dust!
ave they brought to me, these many years!
ce, and bitter tears.

Strange Discovery of a Murder.

THE "RESURRECTION" MEN.

e course of his long professional ca-r Astley Cooper was at least twice in-ntal in discovering murder. The first curious case enough. A Mr. Blight, a roker of Deptford, was sitting in his when the door suddenly opened he saw extended toward him The hand held l, which was fired at him, and he fell ed and the wound subsequently proved The only light he could throw on the was that his partner, Mr. Patch, while in the same room a few days before, ard a gun fired outside and the ball had d the shutter. Cooper seated himself place where Blight had received the , and satisfied himself that to have nd also to conceal his body the mur-must have been a left-handed person. w noticed that Patch, the partner, was handed person, and he became con-l that he was the murderer. Patch was rty after the poor man's death, without spicion attaching to him, but on the st, many damaging facts came out, and s convicted and executed on the strong-cumstantial evidence. On the second on, a rich merchant, who was Cooper's intimate friend, was assassinated. A t brought the news to Sir Astley in a e confused way, and Sir Astley imme-y was convinced that his servant was murderer. The man afterward cut his , but being cured, he was fully convicted uffered on Pennington Heath, near the of the murder. There was a remarka-tatement in the confession. He said e was going up stairs, poker in hand, d his master's bed-room, he said to him-"Nicholson, what are you going to do?" e heard an answer made to him by a at his side. "To murder your master mistress." In both these instances Sir y said that he could not explain the pe-ity of manner in the criminals which him form such a rapid and decided opin-f their guilt.

the life of Cooper we find the best an-s with which we are acquainted of the dable resurrection men Many tales of ry and horror are told of these men, but hardly possible that the fictions ever up to the facts At the commencement er session there was no proper provision rocuring anatomical subjects, and if mag-es and the law officers had not winked olations of the law, the English school of cine would have sunk below the level of medical school on the continent. When Astley Cooper was examined before a com-e of the House of Commons, he aston-l the legislators by saying: "There is no n, let his situation in life be what it may, n, if I were disposed to dissect, I could btain" This, perhaps quite as much e murders of Burke and Hare, in Edin-induced the government to bring for-what was properly called the 'Natomy Most of the resurrectionists came to nds for other violations of the law. The lar indignation against these men was great, and several of them were beaten to h.

e of them is known to have accumulated 00 out of his horrible earnings. One of east horrible of these narratives may be ioned. A "subject" was brought to a medi ian as usual tied up in a sack The doc-aid some money on account for it, and in a hurry, kicked the parcel in the di-n of his dissecting room Going up to bed he heard groans in that direction, ming to see he found a man standing up-with a sack by his side. The fellow in plicating tone, said that a trick had been d on him when drunk. The doctor be-d a further kicking, which sent the "sub-through the door into the street. On ng the matter over in his mind, he was nced that the resurrectionist was an as-l character, and that a burglar had been ded.

s COURSE OF EMIGRATION AT THE SOUTH. army officer who, has for years held a command in the Gulf States has been ng some observations which show that remarkable shiftings of population are g place at the South. From the old At-slave States and the middle belt of the a large emigration of laboring whites is on to the West. This stream, of what once called poor whites, flows in such ie from South Carolina, Georgia and mas as to threaten to depopulate those ns, and it passes over to the lands on Arkansas and Red rivers and into Texas. General says that at points on the Mis-pi boats have at times not been numer-nough to put the emigrants across; he ates that within the year past 20,000 gone from the three States first named. upposes that the poor whites, finding that must work, have decided to go where and grain are cheap, and where they can the soil. He notices that there is at the time a great movement going on of men toward the "cotton belt" or "black " which is being deserted by the white ments before mentioned; and that the s are the only real emigrants to this belt, stretches westward from the Sea Is-to and through Louisiana If this is a the cotton belt will be left in control of lacks and their late masters, the great ation owners. Freedmen are being hired middle, late slave, States, to work on ore Southern plantations.

E DARIEN CANAL.—The expedition to the nus for the exploration of a route for the n Canal, will sail early next week. One e vessels is now ready for sea, and two s are nearly so. They will go under sail mpliance with the late orders from the tary of the Navy, requiring vessels when to save their coal, and trust to the , except in cases of necessity. What will accomplish in making the canal, or ng a way for it cannot be conjectured any degree of accuracy, so I will not late upon it. If it is found that a ca-n be made for any reasonable sum of y, there are plenty of capitalists in New to subscribe to it, and not only to sub-but to put their money up. But the will be much more difficult of construc-han the Suez Canal, and I doubt if it is very soon. What a pity that it is not climate of Egypt, with its dense popu-of cheap laborers. The experience ose who built the Panama railway, what obstacles would be encountered in g a canal, not to speak of the formation soil and the immense amount of rock to t through.—*Washington Correspondence* n.

MING IN COLORADO TERRITORY.—The ge of Gov. McCook says that Colorado solely a country of mountains and of s; the fertility of our soil and the great h yet to come from it, has been over-d or forgotten in the thought of the ing ores yet unclaimed and undeveloped. of very little importance what the coun-to-day, in comparison with what it will the future. Our mines make the pres-f the country, but our agricultural and ral resources must to a great extent, itute the future. All that can be raised temperate zone will grow here in profu-and the soil and climate are such that me amount of labor will produce more in any other portion of the Union. nteer crops of thirty bushels to the acre been raised in the northern part of the ory; and so soon as we have the knowl-which years of experience alone can I believe that no other country can as this in the profitable production of s.

A Happy Meeting.

A HUSBAND AND WIFE MEET AFTER EIGHT YEARS SEPARATION.

[From the St. Joseph (Mo.) Herald, Jan. 12.]

Among the arrivals in a party of emigrants at the Hannibal and St. Joseph depot yesterday, was Hans Beauman, from the old country, direct. At the depot, when he stepped off the cars, he met his wife, who received him with open arms and tears of joy at once more being united to her "first love." The circumstances of the separation and the reunion are full of interest. In 1862, a Mormon preacher went through Germany making proselytes to the Latter Day Saints, and among them were a brother in law of Mrs. Beauman, and his wife, Mrs. B's sister. By persuasion they succeeded in winning Mrs. B. over to the faith, and, against the protestations of her husband, she joined the deluded converts and came out to the land of Mormons, Salt Lake. Here the wretched woman found matters had been misrepresented, and, instead of the happiness she was promised, she found only misery. After six years residence in Utah, she became heartily disgusted. The manner of her escape from the Mormons is not without interest. She made a friend of some overseer of a wagon train, and was hid away in a wagon for eight days, till the train left to return to Missouri. It was then declared by the Mormons to be a capital offense for a woman to leave the country. She arrived first in Nebraska City, where she lived about six months and then came to St. Joseph, where she has since resided, supporting herself by her needle, and saving each year a portion of her earnings for a sacred purpose, which was no less than the sending for her husband, to whom she had written, giving information of the circumstances of her escape, and claiming his forgiveness, which was granted. A few weeks ago she sent the necessary funds to Germany, and the arrival yesterday was the response. It was a strange and joyous meeting. A truant wife was here reclaimed from a revolting faith, and reunited to her husband, under circumstances that leave no room for doubt of her sincerity and future constancy. We learn that they intend to move to Kansas City, for permanent residence. It is stated that the mother of Mrs. Beauman, as well as her sister, are residents of Salt Lake, having been converted to the faith and moved out subsequent to Mrs. Beauman's elopement.

Increase of Population and Wealth.

[From the S. F. Bulletin.]

A statistician has been figuring out the ratio of increase in population for seven decimal periods. The following results are obtained:

	Per cent.
From 1790 to 1800	35.02
From 1800 to 1810	36 45
From 1810 to 1820	33.13
From 1820 to 1830	33 49
From 1830 to 1840	32 67
From 1840 to 1850	35 87
From 1850 to 1860	35 59

The average ration being 34 per cent., it is assumed that the census of 1870 will show an aggregate population of 42,133,051. The production of the country is set down by Mr. Wells at $4,200,000,000. The amount and increase of wealth for three decimal periods is shown by the following figures.

In 1850	$7,135,780,228.	
In 1860	16,159,616,068.	Increase 126 per cent.
In 1870	24,196,000,000	Increase 50 per cent.

Average amount to each person in 1850..........$331 00
Average amount to each person in 1860.......... 510 00
Average amount to each person in 1870.......... 570 00

This computation disturbs the theory that wealth is becoming concentrated in few hands. The average per capita, is greater now than at any other period in the history of the country. Large fortunes are made. But these are not held permanently in families as in Europe. A rich man in the United States rarely succeeds in securing any great amount of wealth to his own heirs for a single generation after his death. In fact, great fortunes are continually being broken up before there has been an opportunity to divide among heirs. The poor are not becoming poorer, according to the estimate given above. If the rich are becoming richer, the law of distribution outside of the statute book, works out a healthy adjustment.

OPIUM EATING BY THE LABORING CLASSES.—The Cincinnati *Chronicle's* New York correspondent says: "Happening in a drug store, a woman stood at the counter while the druggist weighed a portion of a dark mass for her. It was opium. Seeing our attention attracted to it, the woman, who was evidently one of the laboring classes, paid her money hastily, with 'don't wrap it up,' seized it and hurried out of the store. In conversation with the druggist he informed us that she was a confirmed opium eater; that nightly she spent 25 cents at his store for opium. He had at least twenty regular customers who ate opium, and all of them belonged to the laboring classes; that nine-tenths of all the opium eaters he knew were women, and one-third of them were colored women. Some old colored women were inveterate takers of laudanum, and he cited one who came regularly every three days and purchased a dollar's worth of laudanum with money made by washing. Another of his customers, a white woman, drank habitually four ounces of laudanum a day. On her first coming to his store she asked for two ounces, and on receiving it, greatly to his alarm, had put the bottle to her mouth and quaffed it at a draught. As they became more confirmed in the habit, they preferred, he said, morphine, because of its greater strength. He accounted for the use of the drug by this class of persons by the fact that they were often exposed to and contracted neuralgia, when opium and laudanum were administered by the physicians to allay pain or grant sleep; hence they resorted to it as a relief, and eventually became confirmed slaves to the poison. Speaking to a friend of this, he told me I would find such a state of things the experience of most druggists here.

Business for the week opens up with some activity, though the prospect is not at all flattering. Any dullness exhibited in general matters may perhaps be attributed to a prevailing stagnation in manufacturing establishments. These are doing but little comparatively and supplies articles for furnishing our people with many articles, are lying unused at their doors, while we are bringing at a great expense, the same articles from Eastern markets. Just as long as this continues we may anticipate complaints of dull times. Many blame the laborers who demand the perpetuation of the high wages system, for this stoppage of our great producing interests, but we do not consider this altogether right, though doubtless the repeated "strikes" have been detrimental both to the laborer and the capitalist, there is still much reason in the opinion that more excuse exists on the Pacific than it is in the East, for the reason that rents, fuel, subsistence, all are proportionately more costly. There will Coast for the continuance of the price for labor, higher always be an equilibrium of this kind, and reduction of the latter will follow the decline of the former.

Our money market is easy enough, but transactions are limited. Legal Tenders in the afternoon to-day showed a downward tendency, but the quotations above were good at 5 o'clock

Produce is disposed to be dull and prices for Wheat and Flour seem inclined to shade off a little, owing to quoted decline in the English market. Bacon is in demand and figures unchanged. Butter and eggs are weak at the figures we give below. Dry-goods are not in full supply, though quite sufficient for the present demand But few orders are being received from the interior. A better state of affairs in this regard is expected soon.

HIRAM SMITH'S Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months to which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief

DOCTOR GIBBON is responsible, and will give to the patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 952 ON THE LETTER. Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*
